THE $1K CLUB

MAKE YOUR FIRST $1K WITH INSTAGRAM

THE $1K CLUB PLAYBOOK

Work backward from $1,000, and turn Instagram into trackable sales.

For businesses that already sell something.
New Instagram accounts welcome.

BEFORE YOU START

HOW THIS PLAYBOOK WORKS

YOU'RE IN THE RIGHT PLACE IF YOU HAVE:

- **Something to sell** with a price: a product, a service, or a digital product.
- **An Instagram account.** Brand new is fine.
- **A trackable next step** that can lead to money: buy, book, request a quote, inquire, apply, or hire you.

The sale itself can happen anywhere: Etsy, Shopify, Stripe, PayPal, Square, your booking software, or an invoice. Instagram's job is to get the right people interested and moving. Your next step is where that interest becomes money.

THESE COUNT

INSTAGRAM → **a quote request →** **a $250 repair job**

INSTAGRAM → **a booking link →** **a $350 photo session**

INSTAGRAM → **an Etsy listing →** **a $28 order**

INSTAGRAM → **a checkout page →** **a $25 digital download**

This isn't what the method is built for: Instagram → "maybe they'll visit my shop someday." If people can only buy by walking in, you can't see what Instagram is doing, and this method depends on seeing it. If you also take online orders, bookings, or deposits, use that as your next step and you're in.

WHAT THIS IS, AND WHAT IT ISN'T

This is a focused 30-day revenue experiment. You'll:

- work out what $1,000 takes for your offer
- use Instagram to create buying activity you can track
- adjust based on real numbers

It isn't a promise; nobody can promise you $1,000. It isn't an ads course or an SEO course. And it isn't a plan to become a full-time content creator.

THE TWO RULES OF THIS BOOK

Instagram is the strategy. The other platforms are distribution.
We're not trying to win Instagram. We're trying to make trackable sales.

THE BOOK IN ONE PICTURE

I

PART I: BUILD YOUR $1K PLAN

What $1,000 means for your offer, how many sales it takes, who buys, and where they go to buy.

1 What $1,000 really means · 2 Do your $1K math · 3 Check your offer · 4 Know who needs to see it · 5 Build the buying path

II

PART II: USE INSTAGRAM TO RUN IT

Setting up, Reels, Trial Reels, carousels, Stories, asks, and extra distribution.

6 Why Instagram · 7 Set up your account · 8 What Instagram wants · 9 Original work · 10 Reels · 11 Trial Reels · 12 Carousels · 13 Stories · 14 Reach, Trust, Sell · 15 Give every post a job · 16 Create once

III

PART III: MEASURE, FIX, REPEAT

The numbers that matter, finding what's stuck, and your 30-day rhythm.

17 Measure the path to money · 18 Find the bottleneck · 19 Adjust, don't start over · 20 Your 30-day $1K plan

MEET THE FIVE BUSINESSES *illustrative examples*

You'll follow these five through the whole book. Watch how the plan changes with price and business model. They're illustrative examples, not real customers.

BUSINESS	SELLS	AVERAGE SALE	INSTAGRAM SENDS PEOPLE TO
Fix-It Frank handyman	Home repair jobs	**$250**	A quote request form
Golden Hour Studio photographer	Family and portrait sessions	**$350**	A booking page
Sunday Supply Co. Etsy shop, printed on demand	Tees, totes, and mugs for slow weekends	**$28**	The exact Etsy listing
Paper & Pixel digital product	Editable invitation and party-printable kits, customized in Canva	**$25**	A free RSVP-card template (for an email signup), then the kit's checkout page
Ops Clarity consultant	An operations audit for small agencies	**$500**	A discovery-call booking page

START HERE

HOW TO USE THIS BOOK

- **Prepare first.** Read straight through and do each **DO THIS NOW** as preparation: your math, your buyer, your buying path, your account setup, and your first Reel, carousel, and Story sequence, ready to post.
- **Then start your 30 days** (Chapter 20). Publish and test during the 30 days. Measure from Day 1 forward.
- **Use Part III every week.**

YOUR CLUB DOWNLOADS

Find them in **My Account → Downloads**.

D-1	**Reel Safe-Zone Package** MY ACCOUNT → DOWNLOADS	An overlay to edit with, plus a cover/crop guide (Chapter 10)
D-2	**3:4 Carousel Template** MY ACCOUNT → DOWNLOADS	Slides sized for the feed and your grid (Chapter 12)
D-3	**Instagram Setup Checklist** MY ACCOUNT → DOWNLOADS	Every setting and tap-by-tap step, including Facebook sharing (Chapters 7 and 16)
D-4	**Printable Worksheets** MY ACCOUNT → DOWNLOADS	Every worksheet in this book

A NOTE ON PLATFORMS AND RIGHTS

Social-platform features, policies, and music availability change over time. Scrolly provides educational guidance, not legal advice, and does not grant or verify rights to third-party music, images, or other content. You are responsible for confirming that you have the rights needed for the content you publish and for following each platform's current terms.

Fix-It Frank, Golden Hour Studio, Sunday Supply Co., Paper & Pixel, and Ops Clarity are illustrative businesses. Their numbers show how the method works; they aren't results or predictions. Photos in their examples are licensed stock images standing in for each business's own photos and videos. They don't show real customers, clients, or results.

WHERE THE INSTAGRAM FACTS COME FROM (CHECKED SEPTEMBER 2026)

- Ranking signals (watch time, likes, sends): Adam Mosseri, January 2025
- Original content and reposts: Instagram announcements, April 2024 and April 2026
- Carousel second chance: Adam Mosseri, 2024
- Photos and carousels with music in the Reels tab: Instagram @creators, 2024
- Trial Reels: Meta newsroom (December 2024) and the Instagram Help Center
- Reels over 3 minutes: Instagram Help Center
- Skip rate and retention: Instagram Reel Insights, August 2025
- Account Status and recommendation eligibility: Instagram Help Center
- Facebook Reels audience and sharing: Meta Help Center
- Music: Meta Music Guidelines

PART I

BUILD YOUR $1K PLAN

1
WHAT $1,000 REALLY MEANS

2
DO YOUR $1K MATH

3
CHECK YOUR OFFER

4
KNOW WHO NEEDS TO SEE IT

5
BUILD THE BUYING PATH

1 · What $1,000 really means
2 · Do your $1K math
3 · Check your offer
4 · Know who needs to see it
5 · Build the buying path

CHAPTER 1

WHAT $1,000 REALLY MEANS

01

$1,000 isn't a follower count or a views number. It's money collected from real customers for your products or services.

COUNTS TOWARD YOUR $1,000	DOESN'T COUNT
Money collected for what you sell, wherever it's processed	Sales tax
	Shipping you charge
	Refunds (subtract them when they happen)

A POST WITH

40,000 views

and no sales moved you **$0** closer.

A POST WITH

900 views

that brought one booking moved you **$350** closer.

YOUR FIRST $1,000, OR YOUR NEXT

If you've never made money from your offer, this is your first $1,000. If you have, it's your next $1,000 in 30 days. The method is the same; people with past sales simply start with better numbers.

THAT DEFINITION KEEPS YOU HONEST

Your $1,000 is a number of sales.

Everything in this book exists to make those sales more likely, and to show you which part of the path is holding them back.

DO THIS NOW

Fill in one line:

"I sell _____ for about $_____. People can _____ (buy / book / request a quote / message me / apply) at _____."

If you can't fill in every blank, do Chapter 3 before anything else.

CHAPTER 2

DO YOUR $1K MATH

02

STEP 1: HOW MANY SALES?

$1,000 ÷ your average sale = sales needed

Always round up; you can't make half a sale.

$25 SALE	$50 SALE	$75 SALE	$100 SALE	$250 SALE	$500 SALE
40 sales	**20** sales	**14** sales	**10** sales	**4** sales	**2** sales

THE FIVE BUSINESSES

BUSINESS	A SALE IS	CALCULATION	SALES NEEDED
Fix-It Frank	A job	$1,000 ÷ $250	**4**
Golden Hour Studio	A booking	$1,000 ÷ $350 = 2.9, rounded up 3 bookings = $1,050	**3**
Sunday Supply Co.	An order	$1,000 ÷ $28 = 35.7, rounded up 36 orders = $1,008	**36**
Paper & Pixel	A sale	$1,000 ÷ $25	**40**
Ops Clarity	A client	$1,000 ÷ $500	**2**

FEWER SALES ISN'T THE SAME AS EASIER

Lower-priced offers usually require more transaction volume. Higher-priced offers usually ask each buyer to make a bigger trust decision.

Fix-It Frank

Needs only **4 people**, but each one is trusting him inside their home with $250.

Sunday Supply Co.

Needs **36 orders**, but each one is a small, easy decision.

Neither is automatically easier. They need different plans.

Use your real average, not your list price. If most customers buy two tees, your average order is $56, not $28. If most photo clients add prints, your average booking is higher than the session fee.

STEP 2: THE STEPS BEFORE A SALE

Before someone buys, they take smaller steps. Which steps depends on how you sell.

IF YOU'RE A SERVICE WITH QUOTES OR CALLS (FRANK)

People reached → Inquiries → Real conversations → **Jobs**

IF YOU'RE A BOOKED SERVICE (GOLDEN HOUR, OPS CLARITY)

People reached → Inquiries → Conversations → **Bookings**

IF YOU'RE AN ETSY OR MARKETPLACE SHOP (SUNDAY SUPPLY CO.)

People reached → Listing views → Cart adds → **Orders**

IF YOU'RE A SHOP ON YOUR OWN SITE

People reached → Product views → Cart adds → **Orders**

IF YOU'RE A DIGITAL PRODUCT (PAPER & PIXEL)

People reached → Email signups (for a free sample) → Checkout page visits → **Sales**

"People reached" means how many different accounts saw your posts. Instagram shows it in **Insights**, the stats screen for professional accounts. You'll set that up in Chapter 7.

STEP 3: WORK BACKWARD WITH THREE SCENARIOS

You don't know your real numbers yet, so plan with three scenarios. **These are planning assumptions. They aren't Instagram averages, benchmarks, predictions, or promises.**

STEP	LOWER-CONVERSION	PLANNING	HIGHER-CONVERSION
Last step → sale conversation → job, cart add → order	15%	25%	40%
Middle step inquiry → conversation, listing view → cart add	8%	15%	25%
First step people reached → first action	2%	5%	10%

Start from your sales number and divide backward, one step at a time, rounding up.

Fix-It Frank, planning scenario *illustrative example*

4	16	107	2,140
JOBS the goal	**CONVERSATIONS** 4 ÷ 25%	**INQUIRIES** 16 ÷ 15%, rounded up	**PEOPLE REACHED** 107 ÷ 5%

FRANK	LOWER	PLANNING	HIGHER
Conversations	27	16	10
Inquiries	338	107	40
People reached	**16,900**	**2,140**	**400**

400 to 16,900: how uncertain an estimate becomes three steps from the sale.

THE FARTHER FROM THE SALE, THE LESS CERTAIN

The steps closest to the sale are the ones to watch first. After your first week, replace these assumptions with your own numbers (Chapter 17).

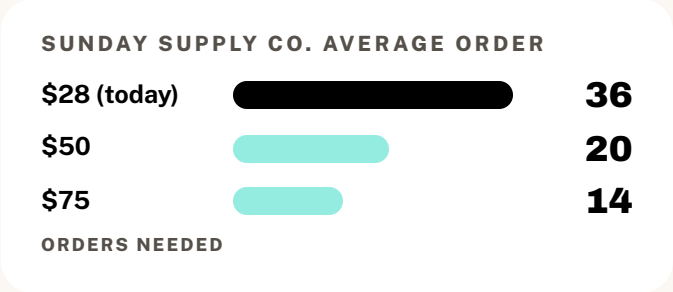

THE OTHER FOUR, PLANNING SCENARIO *illustrative example*

BUSINESS	SALES	STEP 3	STEP 2	REACHED	RANGE
Golden Hour Studio	**3**	**12** conversations	**80** inquiries	**1,600**	**320 to 12,500**
Sunday Supply Co.	**36**	**144** cart adds	**960** listing views	**19,200**	**3,600 to 150,000**
Paper & Pixel	**40**	**160** checkout visits	**1,067** signups	**21,340**	**4,000 to 166,900**
Ops Clarity	**2**	**8** conversations	**54** inquiries	**1,080**	**200 to 8,750**

STEP 4: CHECK YOUR ECONOMICS

Planning signal: if you need about 20 or more sales, you're on a higher-volume path. That's completely workable. It's also a reason to ask, before you chase more reach, whether customers could reasonably spend more per order.

It's a signal, not a cliff: 19 sales isn't easy, and 21 isn't impossible.

These are planning scenarios, not promises.

WAYS TO RAISE THE AVERAGE SALE WITHOUT SIMPLY RAISING PRICES

Use only what fits your business.

Etsy and product shops: a tee + tote bundle, "buy 2, save," a gift set, or a matching mug add-on.

Digital products: a full party suite (invite, signs, and thank-you cards) as a bundle, or a premium version with extra sizes.

Services: packages (3 sessions instead of 1), a follow-up service, or a monthly option.

Local businesses with online ordering: party packs, minimum-order boxes, or add-ons.

Planning signal for higher-priced offers: from roughly $300 up, you need few buyers, and each one is weighing a bigger decision. Proof and an easy next step usually matter more than raw reach. Watch how Golden Hour and Ops Clarity use carousels and Stories in Part II.

WORKSHEET

YOUR $1K MATH

D-4 **Printable version**
MY ACCOUNT → DOWNLOADS

My average sale
What customers actually spend, not list price
$ _____

$1,000 ÷ average sale = sales needed
Round up
_____

Higher-volume path?
About 20+ sales
YES NO

If yes, one realistic way to raise my average sale
_____

If about $300+: my strongest proof right now
_____

My path

STEP 1 → STEP 2 → STEP 3 → SALE

Planning scenario, working backward

circle the number closest to the sale

SALES ÷ 25% → STEP 3 ÷ 15% → STEP 2 ÷ 5% → PEOPLE REACHED

DO THIS NOW

Fill in the worksheet. Circle the number closest to the sale: that's the number you'll watch first.

☐ Done. The number I'll watch first: _____

CHAPTER 3

CHECK YOUR OFFER

03

Reach can't fix an offer people don't understand. Before you try to reach more people, make sure the ones who find you can tell what you sell.

THE STARTING POINT CHECK

Mark each line: ✔ in place, ○ not yet, **?** don't know yet.

CHECK	WHAT IT MEANS	MARK
Offer	A clear, priced offer someone can buy today	☐
Customer	You can name who's most likely to buy	☐
Discovery	At least one way for new people to find you is active (Instagram counts, even brand new)	☐
Follow-up	A way to stay in touch after someone shows interest (email list, customer list, DMs you answer)	☐
Conversion	You know roughly how many interested people buy	☐
Trust	Real proof: reviews, results, testimonials, repeat buyers	☐

! **HAVING IT ISN'T THE SAME AS IT WORKING**

A ✔ on Offer means you have one, not that it sells well; only real numbers can tell you that. Conversion and Trust usually start as "?". That's fine. Don't guess them into a ✔.

THE 10-SECOND TEST

Show your Instagram profile to someone who doesn't know your business. In 10 seconds, can they answer these?

1
What do you sell?

2
Who is it for?

3
About how much does it cost?

4
What do I do if I want it?

BEFORE AND AFTER: THE PROFILE BIO *illustrative example*

Fix-It Frank

BEFORE

fixitfrank
Handy guy, call me!

AFTER

Frank | Handyman in Austin
Home repairs in Austin: decks, fences, drywall. Free quotes, same-day reply ↓

Paper & Pixel

BEFORE

paperandpixel
Pretty printables ✦

AFTER

Paper & Pixel | Party invitations
Editable party invitations you finish in Canva in 10 minutes. $25 kits, instant download ↓

Highlighted: what they sell, who it's for or where, the price or offer, and what to do next.

YOUR FIRST PRIORITY

Use your Starting Point Check to pick **one** priority.

1	**No one new can find you yet?** (Discovery is O)	**Priority** Get the right people to see you.
2	**People can find you, but you don't know how many buy?** (Conversion is ?)	**Priority** Create real buying activity, so you can learn where the real problem is.
3	**You have real numbers, and few interested people buy?**	**Priority** Fix the moment they decide: the offer page, the booking page, or your proof.
4	**You have real numbers, and buyers convert well?**	**Priority** Reach more of the right people. No rebuild needed.

Most readers start at 1 or 2. That's normal.

WORKSHEET: MY OFFER IN ONE LINE

"I sell _____ to _____ for $_____. To get it, they _____."

My first priority (circle one): **Right people seeing me / Real buying activity / Fix the decision moment / Reach more**

DO THIS NOW

Run the 10-second test on a friend today. Rewrite your offer line until they can answer all four questions.

CHAPTER 4

KNOW WHO NEEDS TO SEE IT

04

You don't need a three-page customer profile. You need enough clarity to decide what to post and what to say.

FOUR QUESTIONS

1. WHO BUYS, IN PLAIN WORDS?
"Homeowners in my area with a repair they keep putting off," not "people 25 to 55."

2. WHAT MOMENT MAKES THEM LOOK FOR THIS?
The fence blew over. Holiday photos are coming up. A party is two weeks away.

3. WHAT ALMOST STOPS THEM?
Price worries, "Is this person any good?", "Will this work for me?", or timing.

4. WHAT WORDS DO THEY USE?
Copy them from real messages, reviews, and questions. Their words beat yours.

FROM BUYER TO CONTENT

illustrative example

This is where Part I connects to Part II. Each answer becomes a kind of post.

BUYER ANSWER		BECOMES	EXAMPLE (GOLDEN HOUR STUDIO)
Their moment	→	**A Reel hook**	"Holiday photos in 3 weeks? Here's what a 45-minute session looks like."
Their objection	→	**A carousel or Story**	"'My kids won't sit still.' Good. Here's how we use that."
Their words	→	**Your on-screen text and captions**	"Natural," "not stiff," "the kids actually had fun"
The result they want	→	**Proof and demonstration**	A clip of the pre-shoot chaos, then the calm final photo

WORKSHEET: BUYER SNAPSHOT

BUYS	MOMENT	ALMOST STOPS THEM	THEIR WORDS	RESULT THEY WANT

DO THIS NOW

Fill in the snapshot. Then write one Reel hook from their moment, and one carousel title from their objection. You'll use both in Part II.

CHAPTER 5

BUILD THE BUYING PATH

05

Instagram creates interest. Your buying path turns that interest into money. If the path is confusing, slow, or broken on a phone, good content leaks away.

ONE NEXT STEP, STRAIGHT THERE

BUSINESS	THE NEXT STEP INSTAGRAM POINTS TO
Fix-It Frank	Quote request form (name, phone, what needs fixing, photo upload)
Golden Hour Studio	A booking page showing real open dates
Sunday Supply Co.	The exact Etsy listing or bundle listing, not the shop homepage
Paper & Pixel	A free RSVP-card template in exchange for an email, which then links to the kit's checkout page (not the homepage)
Ops Clarity	A booking page for a 20-minute discovery call

Rule: don't send interested people to a generic homepage when a direct product, bundle, booking, quote, or checkout link exists. Every extra tap loses people. DMs count as a buying path too, as long as you answer fast and move the conversation toward a price, a date, or a link.

THE PHONE TEST

✓ DO THIS

Open your Instagram profile on your phone as if you were a customer.

1. Tap your link.
2. Try to buy, book, or request a quote.
3. Time it.
4. Note every moment you had to think, scroll, or guess.

A GOOD PATH HAS

- [ ] A bio link that goes straight to the next step, or to a short link page with that step as the first button
- [ ] A price, or a clear "from $___"
- [ ] A page that works on a phone without zooming
- [ ] A line saying what happens next ("Quote by text within 24 hours," "Instant download," "Pick a date")
- [ ] At least one piece of proof on the page
- [ ] No request for information you don't need
- [ ] I have a reasonable way to tell whether Instagram contributed to inquiries or sales (Chapter 17)

DO THIS NOW

Do the phone test and fix the **first** friction point you hit. Then write down your one next step and its exact link.

PART II

USE INSTAGRAM TO RUN IT

II

1 GET SEEN

2 GET THE RIGHT PERSON INTERESTED

3 MAKE THE NEXT STEP OBVIOUS

4 GENERATE BUYING ACTIVITY

5 MAKE SALES

6 LEARN WHAT TO CHANGE

6 · Why Instagram for these 30 days
7 · Set up your account to sell
8 · What Instagram wants vs. what you want
9 · Original work: borrow the mechanic
10 · Reels that reach the right people
11 · Trial Reels
12 · Carousels that sell
13 · Stories that sell
14 · Reach, Trust, Sell
15 · Give every post a job
16 · Create once, distribute everywhere

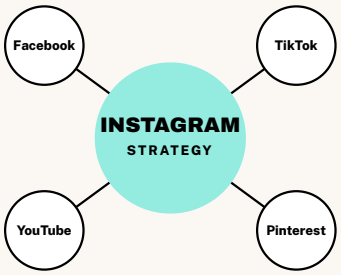

CHAPTER 6

WHY INSTAGRAM FOR THESE 30 DAYS

Thirty days is too short to build five audiences. So we run the method on one platform, and let the others carry the same work as extra distribution.

We didn't pick Instagram because it's "the best platform." TikTok is excellent for fast discovery and in-app product sales. YouTube and Pinterest build long-lasting search traffic. We picked Instagram because it puts everything this method needs in one place.

WHAT THIS 30-DAY METHOD NEEDS	WHAT INSTAGRAM GIVES YOU
Discovery by people who don't follow you	Reels, shown to non-followers through recommendations
A way to test ideas on strangers	Trial Reels, once you qualify (Chapter 11)
Trust and objection handling	Carousels
Daily contact with warm followers	Stories, replies, and DMs
A buying hub	Bio links, action buttons, and Highlights
Free extra reach	Automatic sharing to Facebook
Room to grow later	Meta ads across Instagram and Facebook, when you're ready
Sales that happen anywhere	Your checkout, booking page, Etsy shop, or invoice. Instagram doesn't need to hold the sale.

OUTER CIRCLES = DISTRIBUTION

THE RULE

Instagram is the strategy. Everything else is distribution.

You make the plan, the content, and the decisions for Instagram. The same files can then show up elsewhere (Chapter 16), without a second plan.

DO THIS NOW

Write the one sentence your Instagram profile must make obvious to the right buyer. For example, Frank's: "I fix fences, decks, and drywall in Austin, and a free quote is one tap away." You'll build your profile around it in Chapter 7.

CHAPTER 7

SET UP YOUR ACCOUNT TO SELL

About 30 minutes of setup protects everything you post afterward.

WHICH ACCOUNT SHOULD I CHOOSE?

START HERE. DO YOU NEED ANY OF THESE?

- Product tags from your own catalog, or an Instagram Shop
- A physical address or business location on your profile
- Lead forms
- A scheduling, inbox, or ads tool that requires a Business account

ACCOUNT	CHOOSE IT WHEN
Personal	Not for the $1K method. You need professional tools: Insights, Account Status, and eligibility for Google search.
Creator	You answered **no** to everything above.
Business	You answered **yes** to anything above.

Creator and Business accounts share the core tools this method uses: Insights, Account Status, Trial Reels (once you qualify), link stickers, and contact options.

TWO THINGS ACCOUNT TYPE DOESN'T DO

It doesn't change your reach. We found no evidence that either type is recommended more. Choose by features.

It doesn't give you music rights. A Creator account shows you more songs, but seeing a song in the picker isn't the same as having the right to use it for your business. Chapter 10 covers audio.

HOW TO SWITCH

Profile → ☰ menu → Account type and tools → Switch to professional account → pick a category → Creator or Business

You can switch between Creator and Business later. Full steps are in the Setup Checklist (D-3).

FOUR SETTINGS THAT MATTER

1 ✓ DO THIS

KEEP THE ACCOUNT PUBLIC.

Private accounts can't be recommended to new people.

Settings → Account privacy

2 ✓ DO THIS

CHECK ACCOUNT STATUS.

This is Instagram's screen showing whether your account can be recommended to people who don't follow you. If your account isn't eligible, none of your posts will be recommended. It shows what's causing the problem, so you can fix it or ask for a review. Check it now, and again if your reach suddenly collapses.

Settings → Account Status

3 ✓ DO THIS

ALLOW SEARCH ENGINES.

Public posts from professional accounts can appear in search engines such as Google. Leave "Allow public photos and videos to appear in search engine results" turned on. It's especially useful for local services.

Settings → Account privacy

4 ✓ DO THIS

CONNECT FACEBOOK SHARING.

It's a one-time setup, covered in Chapter 16.

Accounts Center → Connected experiences

Menu names were current in September 2026. Instagram moves things around; if a path has changed, search Settings for the setting's name.

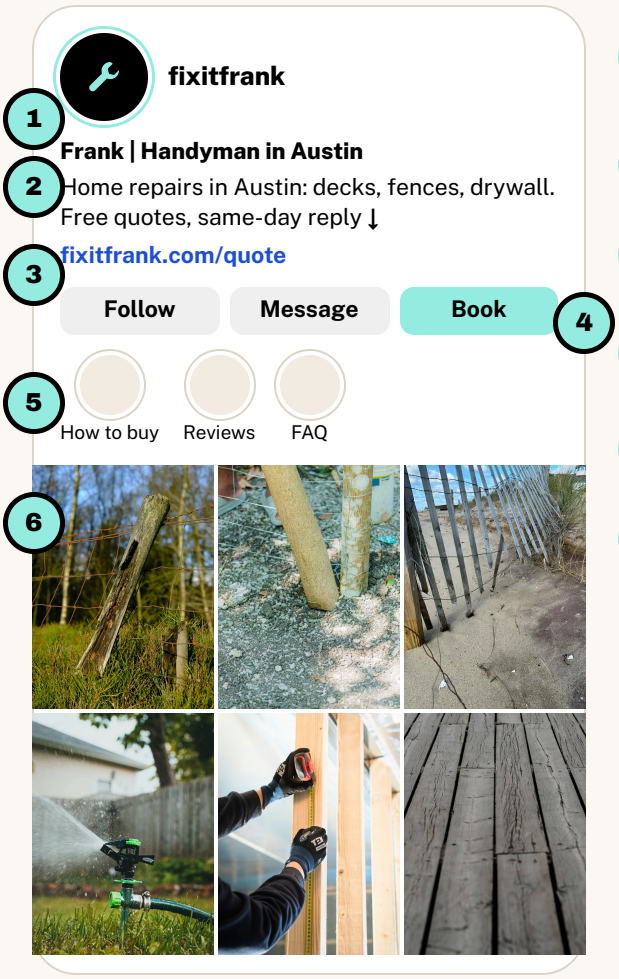

WHY THIS COMES FIRST

A private or ineligible account can't be recommended to anyone new.

Every Reel, carousel, and Story in Part II assumes these four are done.

YOUR PROFILE IS YOUR BUYING HUB

Every good post sends curious people to your profile. The profile has to finish the job.

illustrative example

1. **Name field:** include what you do, for example "Frank | Handyman in Austin." It can help people searching for what you do find you.
2. **Bio:** what you sell, who it's for, the price or "from," and what to do next. Use your Chapter 6 sentence.
3. **Link:** straight to your one next step. You can add several links; the first is the one people tap.
4. **Action button** IF AVAILABLE a "Book" button, if your booking tool supports it.
5. **Highlights:** "How to buy," "Reviews," and "FAQ." They keep your best Stories working after 24 hours.
6. **3 pinned posts:** your best proof, your clearest offer explainer, and your most-asked question.

DON'T WORRY ABOUT THIS YET a new logo, a perfectly matched grid, or a brand color palette.

IF INSTAGRAM DISAPPEARED TOMORROW, YOU'D STILL OWN YOUR WORK

Keep one folder outside Instagram (Google Drive, Dropbox, or iCloud) with: the clean original file of every Reel · carousel source files · product and service photos · hooks, captions, and scripts that worked · testimonials and proof screenshots (with customer permission) · your weekly numbers log.

DO THIS NOW

1. Choose your account type using the box.
2. Check Account Status.
3. Rewrite your bio so it passes the 10-second test.
4. Point your first link at your one next step.

CHAPTER 8

WHAT INSTAGRAM WANTS VS. WHAT YOU WANT

You want sales. Instagram wants people to keep using and enjoying Instagram. Your job is to satisfy both.

WHAT INSTAGRAM SAYS IT WATCHES

In January 2025, Instagram's head, Adam Mosseri, named the three signals that matter most for ranking: **watch time, likes, and sends.** He told creators to look at them relative to reach:

WATCH TIME
how long people keep watching.

LIKES PER REACH
of the people who saw the post, how many liked it.

SENDS PER REACH
of the people who saw the post, how many sent it to someone else in a DM.

He added that likes matter slightly more for reaching your followers, and sends matter slightly more for reaching people who don't follow you yet.

WHAT YOU WATCH

INSTAGRAM'S SCOREBOARD
Will it show the post to more people?

- **Watch time**
- **Likes per reach**
- **Sends per reach**

YOUR SCOREBOARD
Does it lead to money?

- **The right people reached**
- **Profile visits**
- **Link taps**
- **DMs asking about price, dates, or a quote**
- **Inquiries, quote requests, bookings**
- **Cart adds, checkouts, orders**
- **Revenue**

Instagram also shows you **skip rate** (Chapter 10). It's a check on your hook, not one of the three signals Mosseri named.

Instagram's scoreboard tells you whether a post will travel. Yours tells you whether it's worth traveling.

TWO SCORECARDS

illustrative example

REEL A · A TRENDING JOKE

REEL B · FRANK'S FENCE REEL

	REEL A	REEL B
Views	**30,000**	**1,100**
Buying actions	**0**	**4 quote requests**
Sales	**0**	**1 job × $250**
Revenue	**$0**	**$250**

WHICH REEL WON?

For the $1K method, **Reel B.** Reel A won on Instagram. Reel B won for the business.

PULL QUOTE

We're not trying to become influencers. We're using Instagram to acquire customers.

USE WHAT INSTAGRAM WANTS

People send posts that are useful, funny, or painfully true to a friend. So make things your *buyer* would want to send: "Send this to the person who keeps saying they'll fix the fence." The send carries the post to new people. Your profile, your ask, and your buying path turn that attention into buying activity.

DO THIS NOW

Write down your scoreboard: the one business number that means a post did its job.

Frank: quote requests.

Sunday Supply Co.: listing taps and orders.

Ops Clarity: call bookings.

Golden Hour: booking inquiries.

Paper & Pixel: checkout visits.

☐ Yours: _____

CHAPTER 9

ORIGINAL WORK: BORROW THE MECHANIC

Instagram rewards original work in its recommendations, the places where people who don't follow you discover you. New buyers come from exactly there.

WHAT INSTAGRAM HAS SAID

- When Instagram finds identical content, it recommends the original and **replaces reposted copies with the original** in recommendations.
- Accounts that mostly post other people's work lose eligibility for recommendations. Since April 2026 this covers photos and carousels, not only Reels. Followers still see those posts; strangers don't.
- **What counts as original:** work you created, or work that reflects your own perspective. That includes someone else's material you've meaningfully transformed.
- **What doesn't count:** adding a watermark, changing the speed, a small crop, or a screenshot of someone else's post. Instagram says crediting the creator doesn't make a repost original.
- Reels showing another app's logo or watermark are recommended less. **Your own logo is fine.**

BORROW THE MECHANIC, NOT THE CONTENT

A trend is a container. Your business message goes inside it.

BORROW FROM A TREND OR TEMPLATE		BRING FROM YOUR BUSINESS
The format	→	Your footage
The movement or transition		Your buyer's problem
The hook structure		Your hook, in your buyer's words
The editing rhythm		Your product or service
The meme structure		Your proof
The audio, as a reference (see Chapter 10)		Your next step

WORKED EXAMPLE Fix-It Frank

illustrative example

The trend: a popular Reel format, "Things I'd never do as a [job]." A creator lists three quick "nevers," with a cut on each beat.

SOMEONE ELSE'S TREND

Borrow the format, the one-cut-per-beat rhythm, and the list-style hook.

WHERE TO FIND FORMATS

Scroll Reels for 10 minutes and save any format you could film in one take. Keep them in a saved collection called "Formats." Open a Reel's audio or template page to see how other people adapted it.

FRANK'S VERSION: HIS FOOTAGE, HIS BUYER, HIS ASK

Audio: his own voice reading the three lines (Chapter 10). Same container. Frank's buyer, Frank's proof, Frank's next step. Licensed stock stands in for his own job footage.

BEFORE YOU USE ANY TREND, ASK

- Can I adapt this hook to my buyer?
- Can I connect this format to my offer, a problem, a result, proof, or an objection?
- Can I film it simply?
- Will the viewer understand my business, or move closer to it?

If not, skip the trend. A trend that doesn't carry your message is just entertainment on your account.

DO THIS NOW

Find one Reel format you like and fill in the Borrow/Bring table for your business. If you can't fill in the right-hand column, skip that trend.

1 GET SEEN | 2 INTERESTED | 3 NEXT STEP | 4 BUYING ACTIVITY | 5 SALES | 6 LEARN

CHAPTER 10

REELS THAT REACH THE RIGHT PEOPLE

A Reel's job in this method is to get the right people to discover you.
Not everyone: the right people.

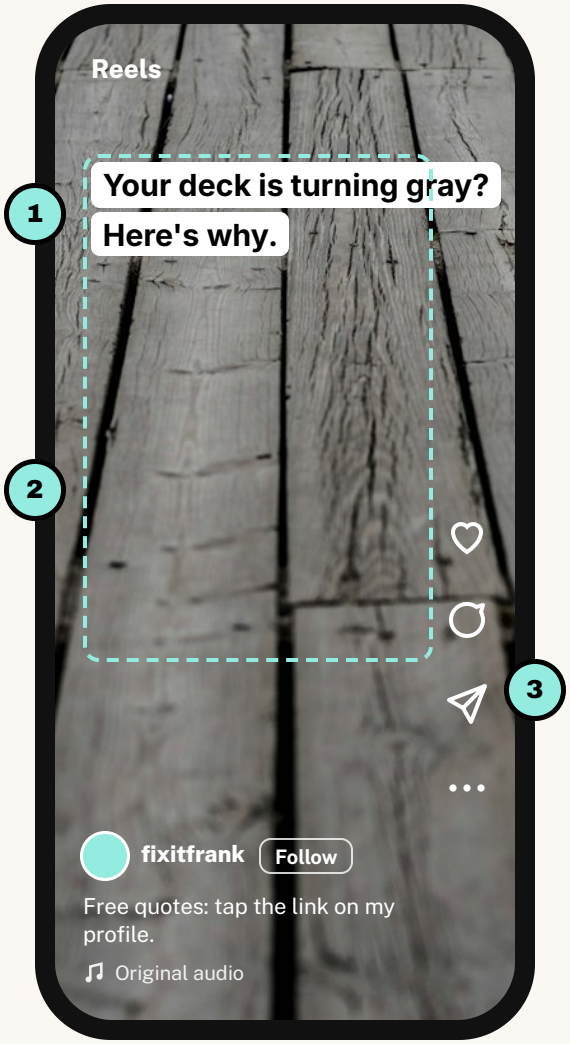

● REACH T S

THE FIRST THREE SECONDS

Instagram's Reel Insights show a **skip rate**: of the people who saw your Reel, the share who swiped away in the first three seconds. It's your hook's report card.

✓ DO THIS

- **Show the subject in the very first frame.** No logo intro, no "hey guys."
- **Put the hook on screen in the first second,** in your buyer's words: "Your deck is turning gray? Here's why." Not "Check out my latest project."
- **Show, don't describe:** the before and after, the product in hand, the invite being edited.

Illustrative mockup, not a screenshot. Dashed line = safe zone (full overlay in D-1). Licensed stock stands in for Frank's footage.

1. **Hook on screen** in the first second
2. **Subject** in the very first frame
3. **Stay clear** of the right edge and the bottom third

HOW LONG?

REACH T S

3:00

Reels can be up to 20 minutes long, but Instagram says **Reels over 3 minutes won't be recommended to new audiences.** For discovery, stay under 3 minutes.

There's no rule that shorter is always better. Match the length to the job:

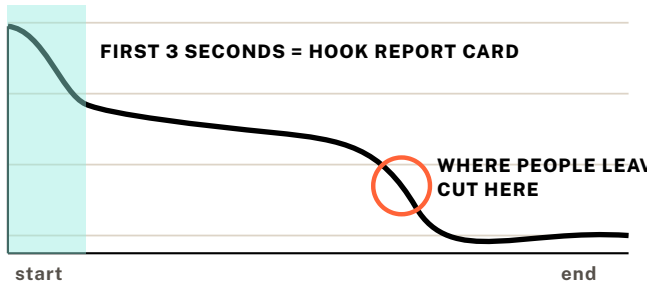

5–15s

One visual payoff, such as a reveal, a before/after, a product in hand, or a loop.

20–90s

When the value is the explanation, such as "3 signs your fence won't survive winter."

HOW TO READ THE RETENTION CHART

Illustrative chart. Your own is in the Reel's insights.

THE RETENTION CHART

Check the **retention chart**, the line showing when people stop watching, and cut where it drops.

WHY THIS BOOK LOVES 5 TO 15 SECOND REELS

More simple tests beat one perfect video.

This is a business reason, not an algorithm rule. Short, simple Reels are fast to film and fast to test. You're running a sales experiment, not a film studio.

ONE-TAKE REELS YOU CAN FILM TODAY

illustrative examples

Each one is a single shot of real footage: no edit, no script, no designed card. Add one line of on-screen text in the app.

Turn and point

Frank points at three rotting fence posts

Product in hand

A Sunday Supply Co. tee held up in morning light

Before/after

Golden Hour: the chaos, then the calm final photo

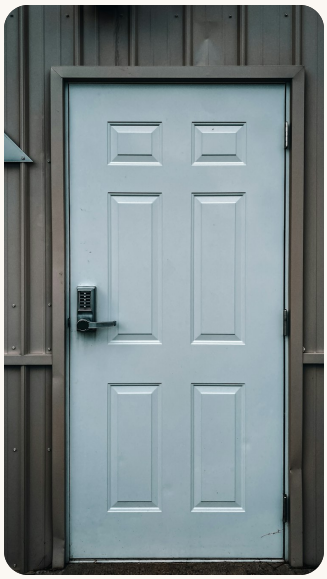

Packing an order

Sunday Supply Co. folds a tee into a tote

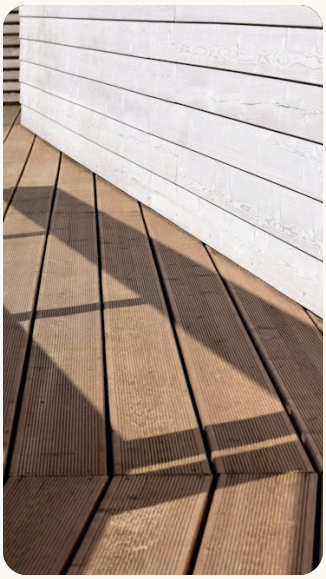

Open the laptop

Paper & Pixel reveals a finished invite on screen

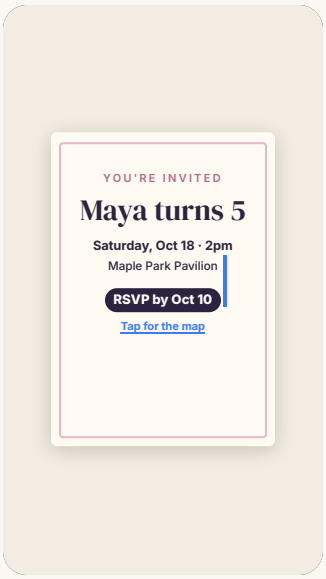

Walk onto a job

Frank arrives; the camera pans to the problem

Pan the finished result

Frank's repaired deck, in one slow pan

Simple demo

Paper & Pixel changes the name on an invite in 5 seconds

Licensed stock stands in for each business's own footage.

AUDIO: WHAT'S SAFE TO USE

Music can make a Reel. It's also the area people most often get wrong. Five different things are easy to mix up:

1
ACCOUNT ACCESS
which songs your account can see in Instagram's audio picker

2
PURPOSE
what the post is for, and how it's used

3
RIGHTS
who owns the music, and which uses are licensed

4
PLATFORM PERMISSIONS
what each platform allows under its own agreements

5
REUSE
whether you can take the same audio to another platform

Being able to see a song doesn't settle the other four. Meta's own music guidelines say that commercial or non-personal use requires the appropriate licenses, and tracks can be muted or removed.

AUDIO	WHY PEOPLE USE IT	RIGHTS PICTURE	TRAVELS TO TIKTOK, YOUTUBE, PINTEREST?
Your voice or original sound talking, the natural sound of the work	Personal, clear, and original	You own it	**Yes.** It's in the file.
Commercially cleared audio Meta Sound Collection, or tracks you've licensed	Built for business and promotional use	Cleared within its license terms	Only where the license covers that platform
Instagram library or trending audio	It's part of how people recognize a trend	Access in the picker isn't a license, and availability can change	**No.** Rights don't travel between platforms.

This isn't legal advice, and we can't tell you whether a specific post is licensed. What we can give you is a practical habit.

WHEN YOU'RE NOT SURE ABOUT THE AUDIO, SWAP IT

1. Keep the trend's format and timing, and replace the song with a voiceover explaining the payoff.
2. Use the natural sound of the work (the saw, the tape gun, the keyboard) plus on-screen text.
3. Choose a similar-feeling track from the Meta Sound Collection.
4. For cross-posting, save the master file with original sound or voice. Add music inside each app, under that app's rules.

Borrow the trend's format and rhythm. Be careful borrowing its song. Scrolly can show you what a trend is doing; we can't give you the rights to its music.

MAKE IT READABLE

✓ DO THIS

Add captions for any speech. Some people watch with the sound off. Use Instagram's captions sticker, or auto-captions in Edits.

✓ DO THIS

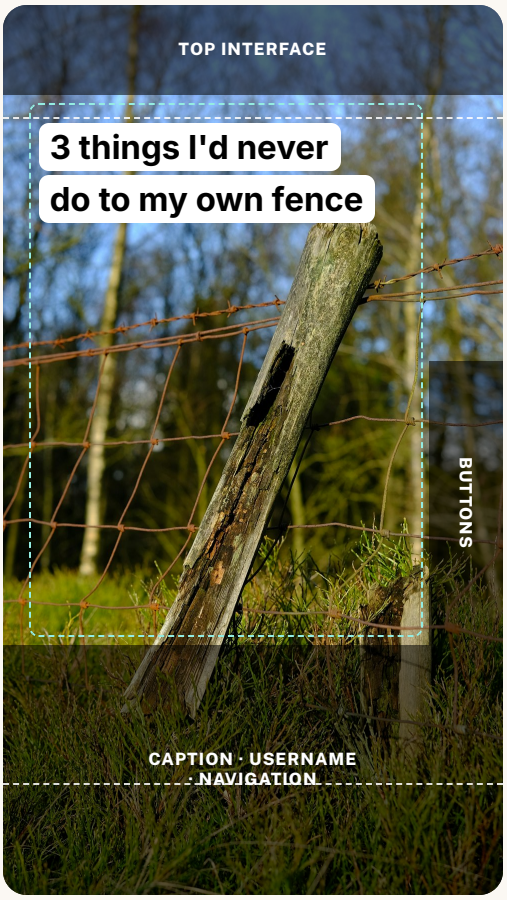

One idea per screen, in large text, inside the safe zone.

✓ DO THIS

Make a cover that works on your grid. Your profile grid crops covers to 3:4, a slightly tall rectangle. Keep cover text and faces in the middle.

THE SAFE ZONE

Instagram's buttons, username, caption, and menus sit on top of your video. Anything underneath them is hard to see.

Teal box = safe for your hook, subject, and ask. White dashes = the 3:4 grid crop. Full overlay in D-1.

If your editor supports layers, use the overlay (D-1). Put it on the top layer while you edit, and keep your hook, subject, and ask inside the teal box. **Delete the layer before you export.**

D-1 **Reel Safe-Zone Package**
MY ACCOUNT → DOWNLOADS

IF IT DOESN'T, FOLLOW THREE RULES

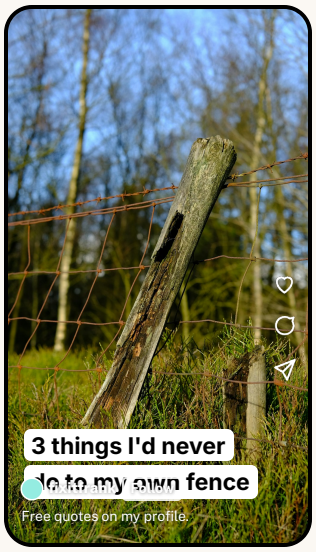

1. Hooks go high.
2. Stay clear of the right edge.
3. Keep the bottom third free of anything important.

GOOD REEL, BAD REEL

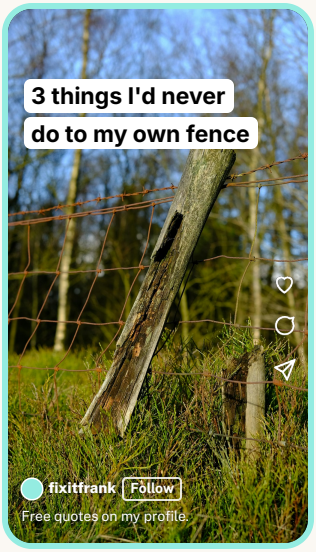

illustrative examples

Fix-It Frank — Hook placement

BAD

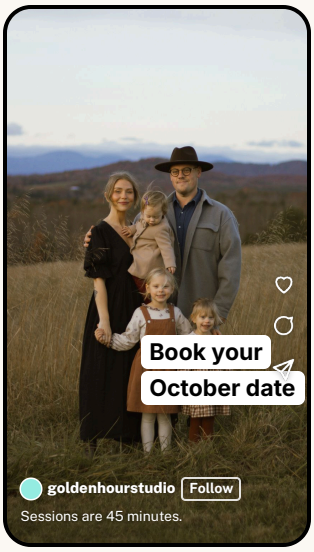

GOOD

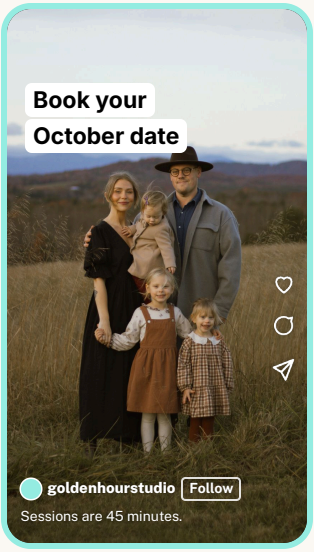

Fix: "Hooks go high."

Golden Hour Studio — Hidden ask

BAD

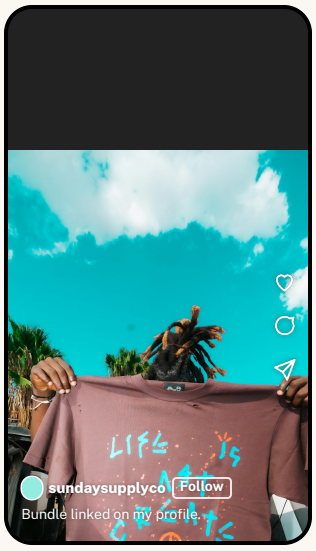

GOOD

Fix: "Keep your ask clear of the buttons."

Sunday Supply Co. — Subject position

BAD

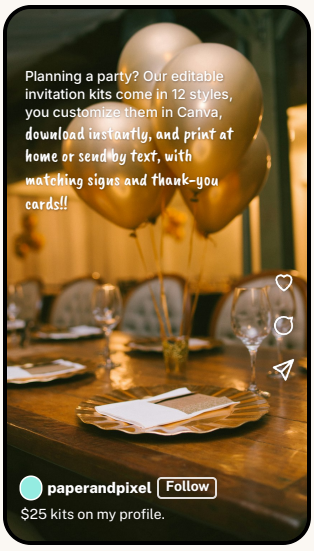

GOOD

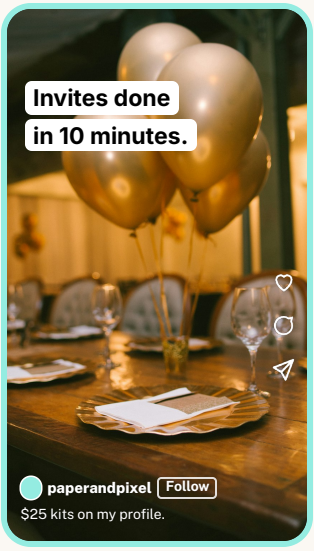

Fix: "Leave room for Instagram."

Paper & Pixel — Text overload

BAD

GOOD

Fix: "One idea per screen."

Illustrative mockups, not screenshots. Instagram's interface is drawn generically. Licensed stock stands in for each business's footage.

PUT THE ASK WHERE PEOPLE WILL SEE IT

A Reel's job is usually **Reach**, so its main ask is often small: watch, send, follow, or visit the profile. When a Reel is built to sell, say the next step clearly. You can use up to three places:

1

On screen, in the video. This is the only ask that survives when you post the same file elsewhere.

2

One line at the end of the caption.

3

A pinned comment on a Reel that's taking off, for example "Free quotes: tap the link on my profile."

TOOLS THAT SAVE TIME

✓ DO THIS **Film with the rear camera** for products, details, and finished work. It's usually the better camera: sharper, better in low light, and with zoom. Use the selfie camera when talking to camera matters more than detail. There's no evidence that camera choice changes your distribution; it's about quality.

✦ TRY THIS **Templates.** Tapping "Use template" on a Reel copies its clip timing, so you just drop in your own footage. Meta's free **Edits** app also has templates.

✦ TRY THIS **Edits.** Meta's free editing app exports without a watermark, adds captions, and shows Reel insights. Mosseri has said using Edits helps reach "a little bit," and only temporarily, so treat it as a workflow tool, not a reach trick.

✓ DO THIS **Save a clean master file.** Export the finished Reel from Edits or your editor to your camera roll before posting. That file, never a download from any app, is what you reuse.

II DON'T WORRY ABOUT THIS YET color grading, a ring light, multi-camera edits, or a posting-time formula.

REEL PLANNING CARD

Also in D-4

BUYER PROBLEM OR MOMENT	FIRST FRAME	HOOK TEXT (ON SCREEN)	PAYOFF	JOB (REACH / TRUST / SELL)	ASK	AUDIO (VOICE / ORIGINAL / CLEARED / TREND + SWAP)

DO THIS NOW

Plan one Reel on the card, using a one-take mechanic. Film and edit it inside the safe zone, and save the clean master file. It's ready to post when your 30 days begin.

1 GET SEEN | 2 INTERESTED | 3 NEXT STEP | 4 BUYING ACTIVITY | 5 SALES | 6 LEARN

CHAPTER 11

TRIAL REELS

IF AVAILABLE

Trial Reels let you show a Reel to **people who don't follow you first**, before your followers see it. They're a way to test a hook or an angle on strangers without cluttering your profile.

HOW THEY WORK

- Turn on the **Trial** toggle when you post a Reel.
- It's shown to non-followers. It doesn't appear on your profile grid or Reels tab unless you share it, though it can still travel through DM shares and audio or effect pages.
- After about 24 hours you'll see views, likes, comments, and shares, compared with your previous trials.
- You can share it to everyone yourself, or let Instagram share it automatically if it performs well on views in the first 72 hours.

WHO HAS THEM

Instagram's Help Center says your account must be:

- public
- **at least 200 followers on a professional account** (1,000 on a personal account)
- eligible for recommendations

If you don't see the toggle, check your follower count and Account Status.

HOW TO READ A TRIAL

Trials usually take longer to get views, because they're shown only to people who don't know you. **Compare trials with other trials, never with your regular Reels.** Promote the winner. If one loses, rewrite the hook before you give up on the idea.

Use a Trial Reel for: testing two hooks on the same footage, a new angle for a different buyer problem, or a format your followers might find confusing.

Use a regular Reel for: proven formats, real deadlines, offers, and anything aimed at warm followers.

NO TRIAL REELS YET?

Post regular Reels and change **one thing at a time**: the hook, the first frame, or the angle. Compare skip rate and sends per reach across those Reels. It's the same logic, just slower.

2-HOOK TEST

Also in D-4

SAME FOOTAGE	HOOK A	HOOK B
Views		
Skip rate		
Sends		
Profile visits		
Winner and next step		

DO THIS NOW

Write two hooks for the Reel you planned in Chapter 10, and make both versions now, before your 30 days start.

With Trial Reels: publish both as trials during your 30 days. **Without them:** publish one version during your 30 days, and the other later in the 30 days, changing only the hook.

1 GET SEEN | **2 INTERESTED** | 3 NEXT STEP | 4 BUYING ACTIVITY | 5 SALES | 6 LEARN

CHAPTER 12

CAROUSELS THAT SELL

A carousel's job is usually Trust: answering objections, explaining, and proving. Carousels also sell well, because people who swipe to the end are paying attention.

R · **TRUST** · S

TWO MECHANICS MOST PEOPLE DON'T KNOW

1 · THE SECOND CHANCE

MONDAY: SCROLLED PAST

LATER: STARTS ON SLIDE 2

Mosseri: if someone sees your carousel but doesn't swipe, Instagram will often show it to them again, starting on the second slide. He also said carousels often get more reach than single photos, partly because of this.

Slide 2 is another first impression. Some people will see it first, so it has to make sense, and hook, on its own.

2 · MUSIC OPENS THE REELS TAB

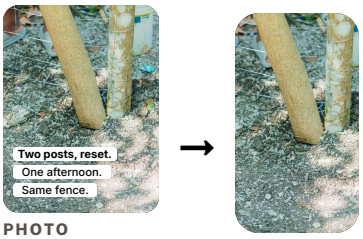

PHOTO CAROUSEL + MUSIC

REELS TAB

Instagram has said that single photos and carousels with music are eligible to appear in the Reels tab, where they can reach new audiences. Choose music using the audio habits from Chapter 10. Music is added on mobile, to photo-only carousels, and can't be changed after posting.

Size: your profile grid is 3:4, and Instagram supports 3:4 photos in the feed. Make slides **1080 × 1440 px**, so the grid and the feed match; the template is download D-2. A carousel can hold many slides. Use as many as the argument needs, and no more.

How to post a carousel:

+ → Post → select multiple → pick your slides in order → Next → add music if you want → caption → Share

THE CAROUSEL SKELETON

Slide 1 first hook → **Slide 2** second hook → **Middle** argument, explanation, proof → **Last slide** the action

· About 25 words or fewer per slide.

· Alternate text slides with real photos.

· Include at least one proof slide: a real result, review, or photo.

· Put the action on the last image **and** in the caption.

ACTION

SNAPSHOT + DIRECT ASK

CAPTION ASK

"Reply with the number that sounds like your team." (a conversation starter) plus the booking link.

DID IT DO ITS JOB?

Look at replies, DMs, and call bookings.

Slide 5 is an illustrative result. Use a real client's approved numbers, or label them illustrative.

SEVEN STRUCTURES TO REUSE

STRUCTURE	BEST FOR
Problem → explanation → solution → action	Services that fix things
Before → process → after → action	Visible transformations
Objection → answer → proof → action	Higher-priced offers
Mistakes → consequences → fix → action	Digital products and education
Comparison → who each option is for → action	Two packages or two products
Mini case study → starting point → action → result → action	Consultants and services
Use case → result → product → action	Physical products

DON'T

- make a list of benefits
- write a wall of text
- use stock photos that pretend to be your work
- put the action only in the caption
- write "keep swiping" on slide 2
- copy another account's carousel

THE VISUAL RULE

Vary the composition. Keep the voice.

Type over a photo, a plain statement, a marked-up photo, a list, a real job, a scrapbook: pick what each slide needs. Your words and your photos make it one post.

DO THIS NOW

Pick one structure and outline 7 slides for your offer on the 3:4 template. Then check slide 2: would it make sense to someone who never saw slide 1?

☐ Done. My structure: _____

1 GET SEEN | 2 INTERESTED | 3 NEXT STEP | **4 BUYING ACTIVITY** | 5 SALES | 6 LEARN

CHAPTER 13

STORIES THAT SELL

Stories are for people who already know you. They're mostly seen by your followers, and the people who interact with you most tend to see them first. Stories aren't how strangers find you; they're how warm people decide to buy.

R | T | ● SELL

WHY STORIES SELL

REPLIES BECOME DMS
and DMs are where many service sales happen.

THE LINK STICKER
lets any account, at any follower count, put a tappable link on a Story.

YOU CAN SELL WITHOUT EVERY POST BEING AN AD
Show proof and help first. Ask last.

How to add a link sticker:

create your Story → sticker icon → Link → paste your next-step link → add short text such as "Pick your date" → place it inside the safe zone

FRAMES THAT WORK

- proof: reviews, results, delivered orders
- answers to objections
- demos
- launches and restocks
- a direct ask with a link sticker
- behind the scenes
- polls and question boxes
- real availability
- FAQs

! **URGENCY ONLY WHEN IT'S TRUE**

"3 dates left" is powerful when there really are 3 dates left. Invented urgency costs you trust with exactly the people most likely to buy.

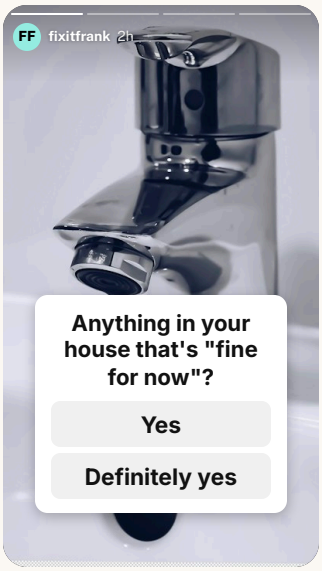

THE 4-FRAME PATTERN

1 · Question or problem → **2 · Proof or demo** → **3 · Answer or result** → **4 · The ask**

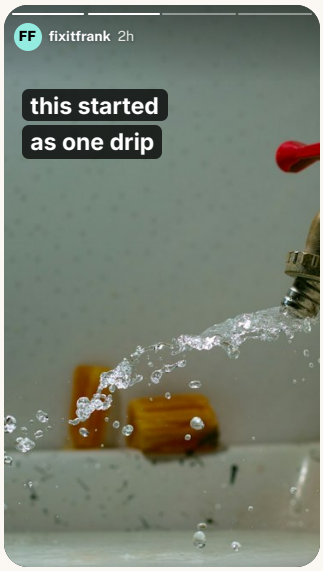

The next pages show the pattern for all five businesses. Each frame is a real photo made in the Instagram app, with one native sticker or line of text. *illustrative examples*

Fix-It Frank : quote nudge

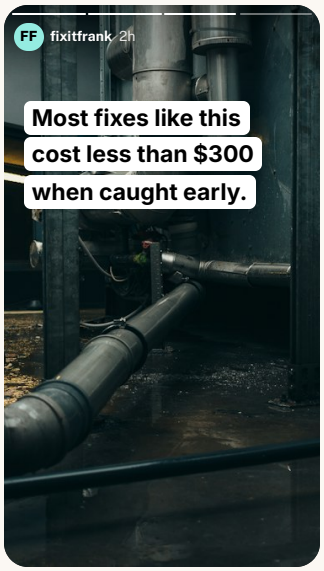

4 FRAMES

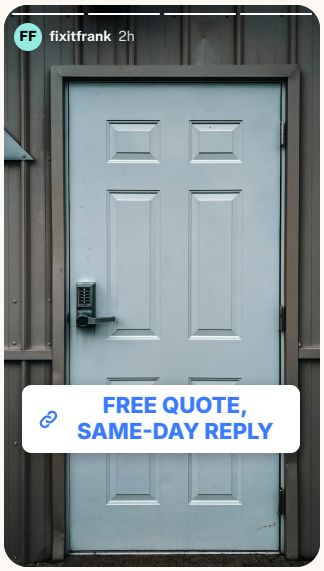

1 · POLL STICKER

2 · 8-SECOND VIDEO

3 · THE ANSWER

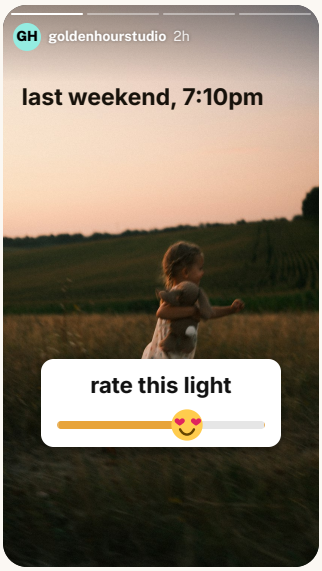

4 · LINK STICKER

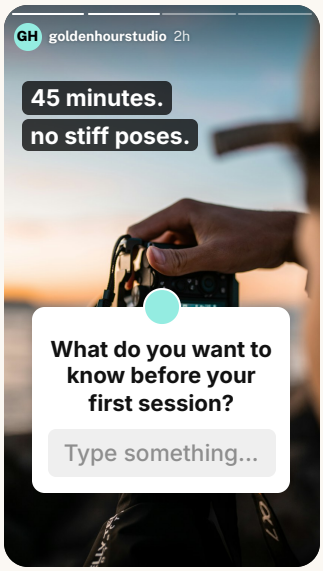

Did it do its job? Look at poll votes (warm people raising a hand), link taps, and quote requests.

Golden Hour Studio : availability

4 FRAMES

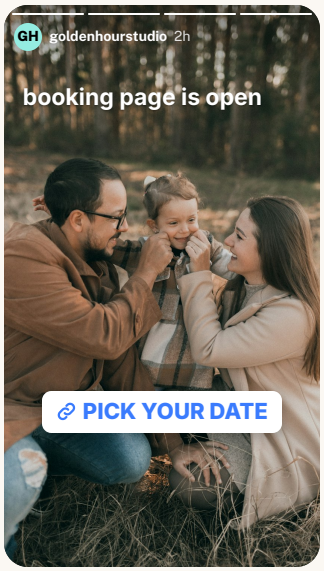

1 · NURTURE: A FAVORITE PHOTO

2 · TRUST: BEHIND THE SCENES

3 · OFFER: REAL AVAILABILITY

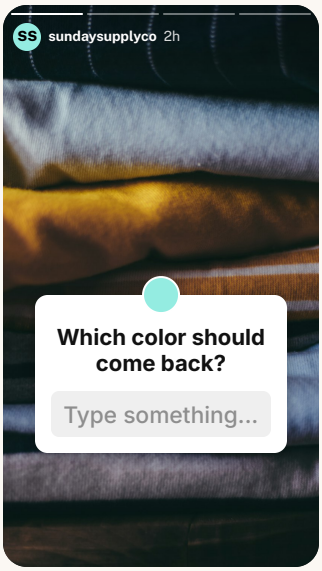

4 · ACTION: LINK STICKER

Did it do its job? Look at link taps and bookings.

Golden Hour's sequence runs Nurture → Trust → Offer → Action. Frame 2 builds trust with a real behind-the-scenes moment. Frame 3 only if the dates are real.

Sunday Supply Co. : restock

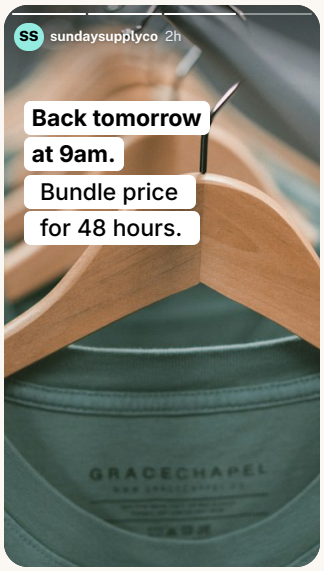

4 FRAMES

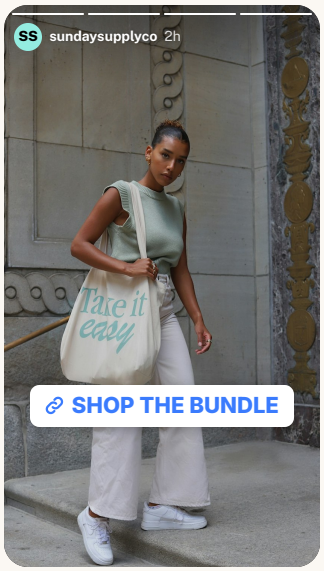

1 · QUESTION STICKER

2 · BEHIND THE SCENES

3 · THE NEWS

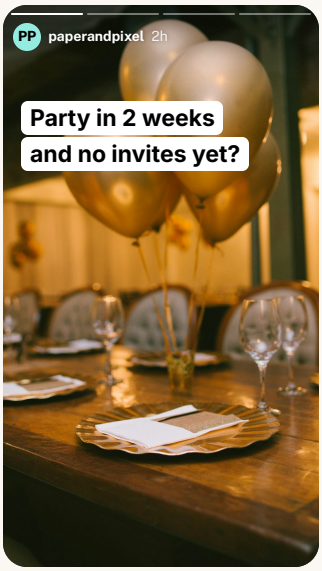

4 · LINK STICKER

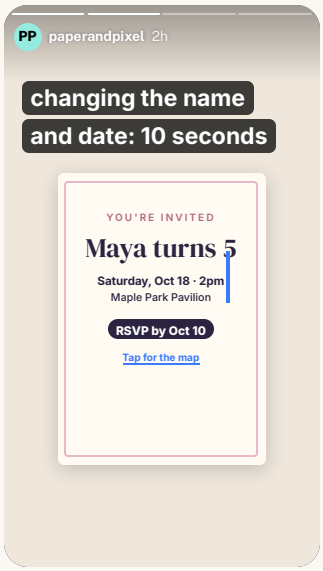

Did it do its job? Look at replies, listing taps, and orders.
Frame 3 only if it's true.

Paper & Pixel : demo

4 FRAMES

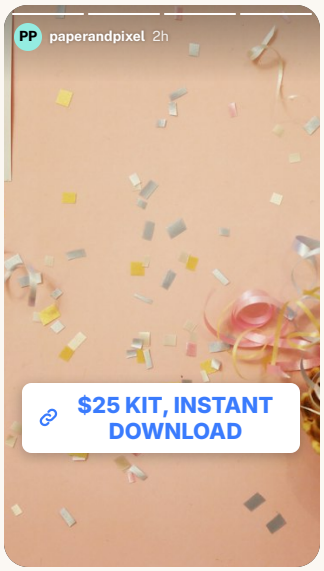

1 · THE PROBLEM

2 · 10-SECOND SCREEN RECORDING

3 · THE RESULT

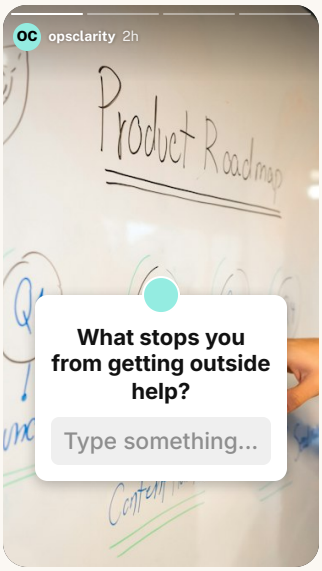

4 · LINK STICKER

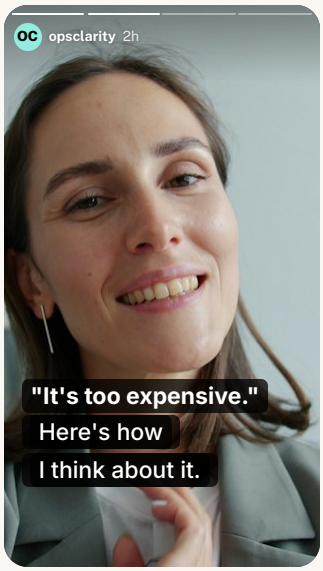

Did it do its job? Look at link taps and sales.

Ops Clarity : objection

4 FRAMES

1 · QUESTION BOX

2 · ANSWER ON CAMERA

3 · A RESULT

4 · LINK STICKER

Did it do its job? Look at question-box replies, DMs, and call bookings.

Frame 3 must be a real, approved result, or labeled illustrative. Licensed stock photos stand in for each business's own.

KEEP GOOD STORIES WORKING

Save your best proof and FAQ Stories to **Highlights** ("Reviews," "How to buy," "FAQ"), so they keep selling after 24 hours.

DO THIS NOW

Build one 4-frame sequence for your offer using the pattern. End it with a link sticker pointing to your one next step. Have it ready to post in your first week.

☐ Done. My sequence is ready. _____

CHAPTER 14

REACH, TRUST, SELL: YOUR WEEKLY CONTENT MIX

Every piece of content should have a job. This is how the $1K method plans those jobs.

REACH

Get discovered by the right people. A Reach post might stop the right person, earn watch time, get sent, create curiosity, or bring a profile visit.

TRUST

Give them a reason to believe you can solve their problem. A Trust post might teach, answer an objection, show expertise, show proof, or show the product working.

SELL

Give an interested person a reason to act, and an obvious way to do it. A Sell post makes the buying action explicit.

Not every post needs "buy now." Your *account as a whole* makes the offer and the next step obvious: the bio, the link, pinned posts, Highlights, and your Sell posts. Individual Reach and Trust posts are free to just do their job.

FORMAT	REACH	TRUST	SELL
Reels	**Main strength**	Secondary	Possible
Carousels	Useful	**Main strength**	Strong
Stories	Limited	Strong	**Main strength**

This is a planning tool, not a description of how Instagram's algorithm works. The formats overlap: a great Reel can build trust, and a carousel can sell.

YOUR WEEKLY MIX

Choose your row from your current bottleneck, using the same names as Chapter 18. In your first week, use "Not enough of the right people are seeing you" or "Not enough information yet."

YOUR BOTTLENECK (CHAPTER 18)	REELS	CAROUSELS	STORY DAYS	MOSTLY
Not enough of the right people are seeing you (or you're brand new)	5	1	3	Reach
Not enough information yet	4	1	3	Reach
Seen, but not interested yet	4	2	3	Reach + Trust
Interested, but not taking the next step	3	1	5	Sell
The decision moment	3	2	5	Trust + Sell
It's working	5	1	3	Reach (repeat what worked)
Sales are working; volume is the limit	4	1	4	Sell (bundles, add-ons)
Capacity	2	1	2	Sell less, fulfill

Fix-It Frank *illustrative example*

Frank's bottleneck this week is the decision moment (Chapter 18). So his week is Trust + Sell: 3 Reels, 2 carousels, and 5 Story days, all with proof and a clear quote follow-up.

✦ TRY THIS **Recycle what works.** When a Reel brings inquiries or sales, make it again next week with a new example.

WORKSHEET: THIS WEEK'S CONTENT

Also in D-4

My focus row: _____ **Reels ___ · Carousels ___ · Story days ___**

Reel ideas: 1. _____ **2.** _____ **3.** _____

Carousel: _____ **Story sequence:** _____

DO THIS NOW

Pick your row. Fill in the worksheet with this week's Reels, carousel, and Story sequence, and tag each one Reach, Trust, or Sell.

CHAPTER 15

GIVE EVERY POST A JOB

Every post should have a job. When you ask for an action, make one primary action clear.

ENGAGEMENT ACTIONS VS. BUYING ACTIONS

ENGAGEMENT ACTIONS · A SIGN OF INTEREST	BUYING ACTIONS · A SIGN OF MONEY
Watch, follow, like, comment, save, send, profile visit, reply or casual DM	A link tap to a product or bundle, a DM asking about price, dates, or a quote, checkout, booking, quote or estimate request, inquiry form, application

Engagement actions tell you a post is working with the right people. Buying actions tell you it's working for the business. Track both, but judge your month by the right-hand column.

MATCH THE ASK TO THE JOB

POST JOB	GOOD ASKS	EXAMPLE	DID IT WORK? LOOK AT...
Reach	Send, follow, visit the profile	"Send this to the friend who needs a fence guy."	Sends per reach, follows, profile visits
Trust	Save, comment, reply, DM	"Save this for your next party." / "Reply with the number that sounds like your team."	Saves, replies, DMs
Sell	The exact next step	"Book your October date." / "Request a free quote." / "Grab the bundle listing." / "Apply for an audit spot."	Link taps, inquiries, bookings, orders

NAME THE STEP, AND WHAT HAPPENS NEXT

Fix-It Frank: "Request a free quote from my profile. I reply the same day."

Golden Hour Studio: "October dates are open. Pick yours on my booking page."

Sunday Supply Co.: "The bundle is linked on my profile. Ships in 3 days."

Paper & Pixel: "$25, instant download. Checkout is on my profile."

Ops Clarity: "DM me 'AUDIT' and I'll send you two call times."

WEAK ASKS

"Link in bio!" (For what?)

"DM me!" (About what?)

"Check out my shop!" (Which part?)

! CHANGE THE ASK BEFORE YOU CHANGE THE CONTENT

If people watch and like but don't act, the fix is often the ask. Make it more specific, easier, or more visible before you reinvent your posts.

DO THIS NOW

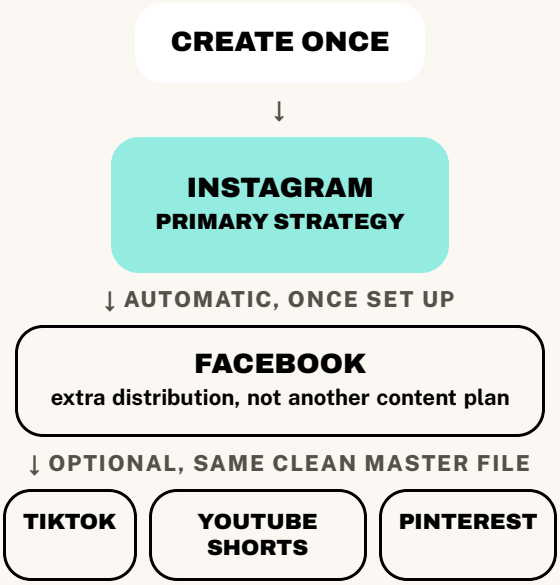

For each post on this week's plan (you gave each one a job in Chapter 14), add its one primary ask, and the number that will tell you whether it did its job.

1 GET SEEN | 2 INTERESTED | 3 NEXT STEP | 4 BUYING ACTIVITY | 5 SALES | 6 LEARN

CHAPTER 16

CREATE ONCE, DISTRIBUTE EVERYWHERE

↗ OPTIONAL DISTRIBUTION The exception is the Facebook setup: it takes 5 minutes and adds reach for free.

FACEBOOK: SET IT ONCE

Facebook doesn't add another content quota. You're switching on an extra place for the same posts to appear, not starting a Facebook strategy. Nothing in your weekly mix changes.

✓ DO THIS Full steps in D-3

1. In Instagram, go to
   Profile → ☰ menu → Accounts Center → Connected experiences → Sharing across profiles
2. Choose your Instagram account as the source, and your **Facebook Page** as the destination.
3. Turn on automatic sharing for **posts** and **Reels**. Stories are optional; check how yours look on Facebook first.
4. **Check that the audience is Public.** If you've never set a Facebook Reels audience, Meta sets it to Public for a public Instagram account. Confirm it once in Facebook's Reels settings. A Public audience lets Facebook show your Reels beyond your existing followers.
5. After your first few Reels, look at them on Facebook: check the video, the audio, and the caption. If a Reel's music doesn't carry over, reshare that one with original or cleared audio.

Every video posted to Facebook is now a Reel, so your shared Reels land in Facebook's Reels feed.

THE CLEAN MASTER FILE

One file, made once, reused everywhere. It should be:

- [ ] exported from Edits or your editor to your camera roll
- [ ] free of any app's watermark. Instagram recommends Reels showing other apps' logos less, so always upload the clean file.
- [ ] vertical, at 1080 × 1920
- [ ] carrying the ask on screen
- [ ] using your voice or original sound, or audio you're licensed to use on each platform

PLATFORM	UPLOAD	WHAT TO CHANGE
Instagram	The master file	Nothing: it's your strategy, as planned
Facebook	Automatic	Nothing, after the one-time setup
TikTok	The master file, not an Instagram download	Write a first caption line people might search for. Add TikTok sounds inside TikTok if you want them.
YouTube Shorts	The master file	Give it a clear title
Pinterest	Upload the video directly; pin carousel slides as images	Add a destination link to the exact product or booking page, plus a descriptive title

ONE CREATIVE, SEVERAL PLACEMENTS

One video posted to four places is one piece of content with four placements, not four tests.

When you review what worked, count the idea once.

DON'T WORRY ABOUT THIS YET separate calendars, platform-specific content, or learning each platform's strategy. If distribution takes time away from your Instagram work or your buying path, skip it.

DO THIS NOW

Set up Facebook sharing. Then decide once, for this month: TikTok yes/no, YouTube Shorts yes/no, Pinterest yes/no. Then stop thinking about it.

- [ ] **Done. Facebook sharing is on.** _____

FIND THE BOTTLENECK

1
MEASURE THE PATH TO MONEY

17 · Measure the path to money
18 · Find the bottleneck
19 · Adjust, don't start over
20 · Your 30-day $1K plan

CHAPTER 17

MEASURE THE PATH TO MONEY

17

You can't fix what you can't see. Once a week, write down a few numbers: only the ones on your path to a sale, plus two content checks.

YOUR WEEKLY NUMBERS

BUSINESS TYPE	BUSINESS NUMBERS	WHERE TO FIND THEM
Services with quotes or bookings Frank, Golden Hour, Ops Clarity	People reached · inquiries · real conversations · jobs or bookings · revenue	Instagram Insights (accounts reached) · your form, inbox, and DMs · your calendar and invoices
Etsy or shop Sunday Supply Co.	People reached · listing views · cart adds · orders · revenue	Insights · Etsy or shop stats
Digital product Paper & Pixel	People reached · signups · checkout page visits · sales · revenue	Insights · your email tool and checkout stats
Everyone	Posts created · placements (including cross-posts)	Your own count

CONTENT CHECKS (FROM INSIGHTS)

Skip rate on each Reel: is the hook working?
Sends per reach: is anyone sharing it?

See Chapters 8 and 10.

SENDS PER REACH, WORKED OUT

A post's shares ÷ its accounts reached. For example, **11 shares ÷ 1,100 accounts reached = 1%**. Compare it with your other Reels, not with anyone else's.

Where to find these: **Profile → Professional dashboard** for account-wide numbers, such as accounts reached. Tap **View insights** under a post or Reel for that post's numbers, including shares.

HOW DO I KNOW IT CAME FROM INSTAGRAM?

Attribution won't always be perfect. The goal is to make your path trackable enough to make better decisions, not to prove where every dollar came from.

YOUR PATH	WHAT TO USE
Quote, booking, inquiry, or application form Frank, Golden Hour, Ops Clarity	Add "How did you find us?" to the form where it fits, and ask in conversation
Etsy, shop, or digital checkout Sunday Supply Co., Paper & Pixel	Whatever traffic, referral, or source information your platform provides (for example, Etsy's traffic sources in Stats)
Instagram itself	Link taps and profile activity in Insights, as supporting evidence

Put the pieces together. If link taps went up this week and so did orders from the listing you linked, that's enough to act on.

BLANK ISN'T ZERO

If you don't know a number, leave it blank.

Zero means "I checked and nothing happened." Blank means "I didn't track it." They lead to completely different fixes, and plans built on guessed zeros go in the wrong direction.

DON'T WORRY ABOUT THIS YET follower count, total likes, or views across all your posts. They feel good, but they don't show which part of your path works.

SWAP THE SCENARIOS FOR YOUR REAL NUMBERS

After week one, calculate your **observed rates**: what actually happened at each step.

Fix-It Frank, week 1 *illustrative example*

1,400	9	3	0
REACHED	INQUIRIES	CONVERSATIONS	JOBS

STEP	PLANNING SCENARIO	FRANK'S OBSERVED RATE	NOTE
Reached → inquiry	**5%**	9 of 1,400 (about **0.64%**)	Real number, lower than planned
Inquiry → conversation	**15%**	3 of 9 (**1 in 3**, about 33%)	Real number, higher than planned
Conversation → job	**25%**	0 of 3	**Too few to call a rate yet.** Keep the scenario for now.

REDO THE BACKWARD MATH, USING THE REAL COUNTS WHERE YOU HAVE THEM

- 4 jobs ÷ 25% (still the scenario) = **16 conversations**
- Observed: 3 conversations came from 9 inquiries, 1 in 3. So 16 conversations need 16 × 3 = **48 inquiries**.
- Observed: 9 inquiries came from 1,400 people reached. So 48 inquiries need 48 × 1,400 ÷ 9 = 7,466.7, rounded up to **7,467 people reached**.

That's a far better plan than the week-one guess, because two of the three rates are now Frank's own. What to *do* about these numbers is Chapter 18's job.

WORKSHEET: WEEKLY NUMBERS LOG

Also in D-4

WEEK	CREATED	PLACEMENTS	REACH	STEP 2	STEP 3	SALES	REVENUE	SKIP RATE (BEST REEL)	SENDS
1									
2									
3									
4									

My step names: Step 2 = _____ Step 3 = _____

DO THIS NOW

Write down this week's numbers now, even if some are blank: that's your baseline. At the end of week one, calculate your observed rates.

CHAPTER 18

FIND THE BOTTLENECK

18

When sales aren't happening, the problem is usually one step on your path. Find the **earliest** step that's stuck. Improving a later step doesn't help if too few people reach it.

1	**Did you track your numbers this week?**	No → **Not enough information yet.** Focus: Track one full week before changing anything.
2	**Did you make any sales?**	Yes, and you need about 20 or more sales in total → **Sales are working; volume is the limit.** Focus: Bundles, add-ons, and repeat buyers. Yes → **It's working.** Focus: Keep doing exactly what produced the sale.
3	**More interest than you could handle?**	Yes → **Capacity.** Focus: Handle the demand you have first.
4	**Do you know your reach?**	No → **Not enough information yet.** Focus: Check Insights weekly.
5	**Is almost nobody seeing your posts?**	→ **Not enough of the right people are seeing you.** Focus: More Reels aimed at your buyer's problem.
6	**People see your posts, but nobody takes the first action?**	→ **Seen, but not interested yet.** Focus: Sharpen the message. Name the buyer's problem in the first line, and check your skip rate.
7	**People take the first action, but not the next step?**	→ **Interested, but not taking the next step.** Focus: Make the next step obvious: the bio link, a pinned comment, Story link stickers, and what happens after they tap.
8	**People reach the last step, but don't buy?**	→ **The decision moment.** Focus: Put your strongest proof where they decide, and follow up clearly.

Go top to bottom and stop at the first question that fits.

THE FIVE BUSINESSES, ONE WEEK EACH *illustrative example*

BUSINESS	WHAT HAPPENED	BOTTLENECK	NEXT WEEK'S FOCUS
Fix-It Frank	1,400 reached, 9 inquiries, 3 conversations, 0 jobs	**The decision moment.** People reached the last step (a conversation) but didn't hire.	Send every quote within 24 hours with a clear price and date; add before/after proof to each quote; run proof Stories all week
Golden Hour Studio	1,200 reached, 6 inquiries, 2 conversations, 1 booking ($350) from the availability Story	**It's working**	Repeat the availability Story sequence and the Reels that brought the inquiries; change as little as possible
Sunday Supply Co.	2,300 reached, 0 listing views	**Seen, but not interested yet**	Reels whose first line names the slow-Sunday moment; 2 carousels showing the tee in real life
Paper & Pixel	1,400 reached, 12 signups, 0 checkout visits	**Interested, but not taking the next step**	The checkout link in every Story and in pinned comments; say "instant download" everywhere
Ops Clarity	Posted 4 times, didn't check reach	**Not enough information yet**	Track reach and inquiries weekly before changing the content

About Frank: his first step, 9 inquiries from 1,400 people reached (about 0.64%, Chapter 17), is low and worth watching. But it isn't zero: he has inquiries and conversations. The first place his path actually stops is the hire, so this week's focus is the decision moment, not more reach.

THE MOST COMMON MISTAKE

When sales are slow, most people post more of the same. If the bottleneck is interest or the next step, more of the same gives you more of the same result. Fix the stuck step first.

How sure can you be? One week is a clue, not a verdict. If the same pattern shows up two weeks in a row, trust it more.

DO THIS NOW

Walk your week's numbers through the flowchart and write down your bottleneck. Then pick next week's row in the mix table (Chapter 14).

☐ Done. My bottleneck: _____

CHAPTER 19

ADJUST, DON'T START OVER

19

Every week, make four decisions and write them down.

KEEP

Whatever produced your best real result: a sale, an inquiry, or a booking. If a Reel format brought inquiries, make it again.

STOP

Only with a real reason: it clearly doesn't fit your buyer, or you've tested it properly. **One bad week is never a reason to quit a format.**

TEST

One change for next week, aimed at your bottleneck. If you change five things, you won't know which one worked.

- Not enough of the right people are seeing you → a new Reel angle on your buyer's problem
- Seen, but not interested yet → a new hook (IF AVAILABLE: test it as a Trial Reel)
- Interested, but not taking the next step → a clearer ask, plus a Story link sticker
- The decision moment → proof where they decide
- Sales are working; volume is the limit → a bundle or add-on

NEXT FOCUS

One sentence, for example: "Make the step from Instagram to my quote form impossible to miss."

Starting over throws away what you learned. Your numbers show which steps work. Fix the stuck one, and keep the rest.

DO THIS NOW

Fill in this week's card:

Keep: _____ Stop: _____

Test (one): _____ Next focus: _____

CHAPTER 20

YOUR 30-DAY $1K PLAN

20

BEFORE DAY 1
One sitting, about 90 minutes

- [ ] $1K math (Chapter 2)
- [ ] Starting Point Check and first priority (Chapter 3)
- [ ] Buyer snapshot (Chapter 4)
- [ ] Phone test, first fix, and your one next step (Chapter 5)
- [ ] Account type, Account Status, bio, link, and Facebook sharing (Chapters 7 and 16)
- [ ] First Reel (plus a second hook version), one carousel, and one Story sequence, ready to post (Chapters 10 to 13)
- [ ] A reasonable way to tell whether Instagram contributed to inquiries or sales (Chapter 17)
- [ ] Baseline numbers (Chapter 17)

Day 1 starts when this list is done. Publish and test during the 30 days, and measure from Day 1 forward.

EVERY WEEK

WHEN	WHAT YOU DO
Plan day for example, Monday	Pick your row (Chapter 14). Plan your Reels, a carousel, a Story sequence, and one business move. Tag each one Reach, Trust, or Sell.
During the week	Create and post. Give every post a job. Reply to every inquiry fast.
Every sale	Log it the day it happens, along with any refund.
Check-in day for example, Sunday	Numbers (Chapter 17) → bottleneck (Chapter 18) → weekly card (Chapter 19).

ONE BUSINESS MOVE A WEEK

Content isn't the only lever. Pick one move that fits your business:

Fix-It Frank: message 10 past clients: "I have openings this month. Know anyone with a repair on their list?"

Golden Hour Studio: share 3 recent sessions, each ending with the booking link, and ask each new client for a review.

Sunday Supply Co.: refresh the titles and first photos of the top 3 listings, and create one tee + tote bundle listing.

Paper & Pixel: record a 10-second demo and pin it to the profile with the checkout link.

Ops Clarity: send 5 personal notes to past contacts offering an audit slot.

TRACK YOUR GAP TO $1,000

$1,000 − revenue so far = what's left
What's left ÷ your average sale = sales still needed

illustrative example

Frank, day 9

$250 so far. $750 ÷ $250 = **3 more jobs.** With 21 days left, that's about 1 a week.

Sunday Supply Co., day 16

$532 so far. $468 ÷ $28 = **17 more orders.** With 14 days left, that's about 9 a week, which is why the focus turns to bundles.

Golden Hour, day 12

$700 so far. $300 ÷ $350 = **1 more booking.**

! DON'T LET ONE GOOD WEEK FOOL YOU

Early weeks swing around. Use "sales still needed" as your guide, not a guess about day 30.

WORKSHEET: 30-DAY TRACKER

Also in D-4

	WEEK 1	WEEK 2	WEEK 3	WEEK 4
Focus row				
Content (Reels / carousels / Story days)				
Business move				
Revenue this week				
Revenue so far				
Sales still needed				
Bottleneck				
Keep / Stop / Test				

WHEN THE 30 DAYS END

You reached $1,000: write down exactly what worked: which Reels, which asks, and which business move. That's your repeatable system for the next $1,000.

You didn't: read your numbers, not your feelings. Which week brought the most buying activity, and what were you posting then? Which step was stuck most often? Start your next 30 days there. Getting partway there with real numbers is real progress.

DO THIS NOW

Put your plan day and check-in day in your calendar for all four weeks. Then do the "Before day 1" checklist.

THE $1K CHALLENGE

WANT SCROLLY TO RUN THIS WITH YOU?

This playbook is the complete system, and everything in it works on its own.

The $1K Challenge is for people who want to run the system for 30 days with structure and support. It adds:

01 **Your $1K plan, calculated for your business:** your sales number, your path, your economics, and your first priority.

02 **This Week:** a short, personal list of what to post and what to fix, based on your business and your current bottleneck.

03 **Fresh Reel opportunities every week:** 25 current formats, each with the mechanic explained, plus 30 carousel and 30 Story templates.

04 **A weekly check-in** that finds your bottleneck and updates your focus.

05 **Your progress to $1,000**, tracked through the 30 days.

earn your stripe

Reach $1,000 in qualifying revenue within 30 consecutive days, verify it, and you **earn your stripe**, plus the shirt that goes with it.

Add the $1K Challenge in your account

QUICK REFERENCE

Print this page.

- **The two rules:** Instagram is the strategy; everything else is distribution. We're not trying to win Instagram; we're trying to make trackable sales.
- **The spine:** get seen → get the right person interested → make the next step obvious → generate buying activity → make sales → learn what to change.
- **Sales needed:** $1,000 ÷ average sale, rounded up. About 20 or more sales = higher-volume path: look at bundles and add-ons. About $300 or more = a bigger trust decision: lead with proof and an easy next step.
- **Buying path:** one next step, a direct link (never a generic homepage), and it passes the phone test.
- **Planning scenario:** last step 25%, middle step 15%, first step 5%. These are assumptions to work backward from, not benchmarks. Replace them with your observed rates after week one.
- **Rhythm:** prepare first. Publish and test during the 30 days. Measure from Day 1.
- **Buyer → content:** moment → Reel hook · objection → carousel or Story · their words → on-screen text · result → proof.
- **Reach / Trust / Sell:** Reels mostly Reach · carousels mostly Trust · Stories mostly Sell.
- **Reels:** subject in the first frame, hook on screen, under 3 minutes for discovery, captions, safe zone, clean master file.
- **Audio:** voice and original sound travel. Use cleared audio for business use. Trend audio is a reference; swap it when you're unsure.
- **Carousels:** slide 2 is another first impression. 3:4 slides. The action goes on the last slide and in the caption.
- **Stories:** question → proof → answer → ask. Use the link sticker. Urgency only when it's true.
- **Every post has a job.** When you ask, make one primary action clear.
- **Distribution:** Facebook on automatic, with no extra quota. TikTok, Shorts, and Pinterest are optional, from the clean master file.
- **Weekly numbers:** reach, step 2, step 3, sales, revenue, skip rate, sends per reach (shares ÷ reach). Blank isn't zero.
- **Did it come from Instagram?** Form question where it fits, your platform's source data, and Instagram link taps. Good enough to decide, not perfect.
- **Engagement vs. buying:** saves, sends, and comments show interest. Link taps, inquiries, bookings, orders, and DMs about price or dates show buying.
- **Bottleneck order:** not enough information → not enough of the right people seeing you → seen but not interested → interested but not taking the next step → the decision moment. Fix the earliest stuck step.
- **Weekly card:** Keep · Stop (with a reason) · Test (one thing) · Next focus.
- **Gap:** ($1,000 − revenue so far) ÷ average sale = sales still needed.
